## SKILLS

### UX Design

|                          |                   |
|--------------------------|-------------------|
| User Research            | Wireframing       |
| Prototyping              | Usability Testing |
| Persona                  | User Journeys     |
| Information Architecture |                   |

### UI Design

|                                              |                   |
|----------------------------------------------|-------------------|
| Interaction Design                           | Visual Design     |
| Design Systems                               | Responsive Design |
| Accessibility (WCAG / Accessibility Testing) |                   |

Innovative UX/UI Designer with 12+ years of experience delivering user-centered digital products and applying Human-Centered Design (User-Centered Design) principles across enterprise, SaaS, and mobile-first platforms.

Skilled in user research, wireframing, prototyping, usability testing, and design systems, with expertise in design leadership, cross-functional collaboration, and accessibility (WCAG) compliance.

Adept at driving end-to-end design processes in Agile/Scrum environments, ensuring intuitive, accessible, and visually compelling user experiences that align with business goals.

## EXPERIENCE

**ITOrizon India Private Limited** - Bengaluru, India

**UX/UI Lead**

May 2025 – Jul 2025 📅

- Design enterprise Supply Chain Management systems, improving usability and operational clarity.
- Build a scalable design system with reusable components, enhancing consistency across products.
- Deliver responsive prototypes in Figma, accelerating design reviews and development handoff.
- Mentor junior designers, conduct design audits, and enforce best practices to raise team capability.
- Drive agile sprint planning, UX audits, and design QA to align design with business goals.

**Tech Mahindra Limited** - Bengaluru, India

**UX Tech Lead**

May 2022 - Apr 2025 📅

- Define product requirements and user flows, ensuring alignment with business goals and user needs.
- Develop wireframes, prototypes, and design specifications using Figma.
- Design accessible, brand-compliant web & mobile interfaces.
- Conduct heuristic evaluations and competitive analysis to identify UX improvement opportunities.
- Create and maintain design systems for consistency across multiple projects.
- Mentor team members and lead design workshops to strengthen design culture.
- Champion accessibility standards (WCAG) to ensure inclusive user experiences across all platforms.

## Tools

|             |             |
|-------------|-------------|

| Miro        | Photoshop   |
| Illustrator | Dreamweaver |

## Front-End Skills

|            |           |
|------------|-----------|
| HTML5      | CSS3      |
| JavaScript | Bootstrap |

## Collaboration

|                           |                                |
|---------------------------|--------------------------------|
| Mentorship                | Design Leadership              |
| Agile / Scrum Methodology | Cross-functional Collaboration |

## CERTIFICATION

**IIT-M Certified – UI/UX Designer**

## LANGUAGES

**English – Proficient**

**Tamil – Native**

**Amarprakash Developers Pvt Ltd - Chennai, India**

**UX/UI Product Lead**

Oct 2012 - Apr 2022 📅

- Lead multidisciplinary teams (Web, Digital Marketing, Design, Pre-sales, & Campaigns) to deliver digital Solutions.
- Design web & mobile applications, ensuring responsive and engaging user experiences.
- Create digital marketing assets (banners, templates, & social graphics) to enhance brand visibility.
- Contribute to ERP portal UX design – enabling enterprise users to efficiently access resources.
- Develop design guidelines and component libraries, streamlining collaboration.
- Implement process improvements, performance management, and mentoring programs.
- Collaborate with stakeholders to define digital strategies that align with business objectives.
- Introduce UX best practices to the organization, improving product usability and customer satisfaction.
- Apply A/B testing and analytics insights to refine design decisions and increase conversion rates.
- Oversee end-to-end product lifecycle, ensuring timely delivery of high-quality solutions.
